Dr. Waleed Al Harbi

M.B.B.Ch, M.R.C.P.I (Medicine) UK, MSc in
Health Care Management - London

Team Leader, Medical
HSE DEPARTMENT
KUWAIT NATIONAL PETROLEUM CO.,

Kuwait National Petroleum Company is honored to present its inaugural Virtual Conference on a very important topic "Occupational Health & Industrial Hygiene".

With the ILO estimates that some 2.3 million women and men around the world succumb to work-related accidents or diseases every year; this corresponds to over 6000 deaths every single day. Worldwide, there are around 340 million occupational accidents and 160 million victims of work-related illnesses annually. Attention is definitely required to address the Occupational Diseases., This Conference serves as a platform for industry to talk about bridging this gap and bring the key takeaways to the attention of the Industry Leaders. Attendees for this Conference & Exhibition will be from around the world and hence reflect the stature and importance of Occupational Health & Hygiene in the Oil & Gas Industry in the region and globally.

This Event "Kuwait International conference on Occupational Health & Industrial Hygiene – KICOH2021", will be an interesting event which will give us an opportunity to meet the right contacts and get important information about the industry and the profession. We feel privileged to be able to host this Conference and bring prominent global professionals in the field of OH & IH to share their knowledge. This will also be a great platform for our GCC Oil & Gas fraternity to network and benefit from the networking.

I take this opportunity to invite all our private organization who are dealing with OH & IH Equipment and Service providers, Medical Clinics those are supporting the OH programs of the Oil & Gas Sector, all the Operations, Maintenance, Office Staff, Management and Middle Management Staff and HSE to join. Together we can create awareness of this important and most neglected aspect of injuries that are occurring due to occupational diseases.

*I once again welcome you all for this first of its kind conference that will prove to be an exciting Conference. Join us to Celebrate the "Occupational Health & Industrial Hygiene - 2021 with the theme "**Occupational Health & Industrial Hygiene Beyond Horizon**"*

OBJECTIVE

This Conference will be the first of its kind in Kuwait and in the region to focus on this niche category of HSE. It's aimed at bringing together various practitioners in the field of Occupational Health & Industrial Hygiene from a wide range of organizations around the globe to participate in the workshops, presentations and discussion sessions on Occupational Health & Hygiene. Internationally most successful leaders will share their industry knowledge, strategies and experiences on how to accelerate positive organizational change and look beyond horizon.

The Conference is supported by Kuwait National Petroleum Company - a subsidiary of Kuwait Petroleum Company - Kuwait. It will showcase and encourage O & G professionals and help companies to learn how to minimize their business risks by improving their Occupational Health & Industrial Hygiene Program.

A platform for Local and International product manufacturers, vendors and OH & IH service providers to showcase their best products through our Expo, and get global attention in the presence of CEOs & Managers from around the globe. Sharing of best practices from within GCC nations as well as globally.

We will make use of a virtual conference platform that will allow participants to experience the live sessions and view recorded on demand content at their convenience. The conference will enable networking with other participants in a variety of ways, including a networking lounge that will allow you to join friends and colleagues for face-to-face chats

Technical Topics

- Occupational Health
- Mental Health
- Occupational Disease, Illness, Injury and Surveillance
- Risk Assessment & Human Factors
- Contractor IH Management
- Fatigue Behind the Wheel or in the Workplace
- Ergonomics - Work from Home
- Work Environments (indoor air, industrial processes)

Conference Features

- Key Note Address
- Executive Panel Discussion
- Plenary Sessions
- Technical Sessions
- Workshops

Why the Conference is a must to attend ?

Internationally renowned experts from across the globe will be joining the conference which will enable the delegates to:

- Keep up-to-date with the latest trends and issues affecting OH & IH
- Learn about current best practices
- Match with the latest International Standards
- Network with international and regional OH & IH professionals
- The New Norm of remote operation and its impact

The anticipated participants of this conference will be Professionals from the Academia, Scientists, Engineers, Management, and Technologists. At this conference, inspiring experiences and the success of implementation of OH & IH programs will be shared. It will indeed be a platform to look forward to.

KEYNOTE ADDRESS

Dr. JOHN MULHAUSEN

Ph.D., CIH, CSP, FAIHA

President, American Industrial Hygiene
Association - USA

TOPIC : *"MORE EFFECTIVE AND EFFICIENT RISK
MANAGEMENT THROUGH IMPROVED
EXPOSURE JUDGEMENTS"*

John Mulhausen Ph.D., CIH, CSP, is currently President of AIHA. He retired in 2018 from 3M where he worked for 31 years in a variety of global health and safety risk management roles, most recently as Director of Corporate Safety and Industrial Hygiene.

He has authored / co-authored over 100 presentations, publications or professional development courses in forums throughout the world and contributed advice and expertise on various working committees sponsored by NIOSH, AIHA, ACGIH, and the National Academy of Sciences' Institute of Medicine. John is an adjunct assistant professor at the University of Minnesota, a Fellow of the AIHA, recipient of ABIH's Lifetime Achievement Award and AIHA's Edward J. Baier Technical Achievement Award and Henry F. Smyth Award.

TOPIC OBJECTIVE:

Inform attendees on proven mechanisms for improving the accuracy of exposure judgements and thereby improve both the effectiveness and the efficiency of their efforts to protect workers.

LEARNING OUTCOME:

- Improved understanding of readily available statistical approaches to improving decision accuracy when monitoring data are available.*
- Improved understanding of mechanisms for improving decision accuracy when monitoring data are not available.*
