

**Ts Mohd Asyraf Bin Che Doi**  
(NRIC No: 760515-02-5867)

Ts Mohd Asyraf bin Che Doi is a Senior Lecturer at Universiti Malaysia Perlis. He held a Master of Philosophy (MPhil) degree in Manufacturing Engineering & Operations Management from the University of Nottingham, United Kingdom. His research area is Ergonomics. He also held a Bachelor of Science in Industrial Engineering from University of Missouri, USA.

He had over 15 years of experiences in field of Ergonomics in both training and consulting.

He had been conducting training in wide range of training from basic ergonomics including awareness to advance ergonomics including Ergonomics Risk Assessment for different companies and factories throughout Malaysia.

He is also one of the technical committee members for the Guidelines on Ergonomics Risk Assessment at Workplace published by Department of Occupational Safety and Health (DOSH) Malaysia in 2017. He had also involved in developing training modules on this guideline for NIOSH, HFEM and Northern Ergonomics. He is also an approved trainer for these modules.

Besides training and consultation, he also published journal papers in the fields of Ergonomics. In addition, he is the founder and first Editor-in-Chief for Malaysian Journal of Ergonomics (MJEr).

In addition, besides focusing on ergonomics, he also taught Occupational Safety and Health (OSH) related topics at degree and master courses since 2012 and giving training on OSH awareness, HIRARC and etc to other organizations.
